# NURTURING YOUR CHILD'S POTENTIAL

With so many demands on today's families, parents need all the support they can get. That's why child care at the Y offers more than just looking after kids. We nurture their development by providing a safe place to learn foundational skills, develop healthy, trusting relationships and build self-reliance through our values of caring, honesty, respect and responsibility.

For details, contact one of our child care centers listed on page 4 or El Camino YMCA at 650 969 9622.

**Financial assistance is available.**

## YMCA CHILD CARE

Children are like sponges – they watch and absorb knowledge, skills and values from everything and everyone around them. We believe the values and skills learned early on are vital building blocks for quality of life and future success. At the Y, preschoolers experience early literacy, develop independence and learn about their world. School-age kids make friends, learn new skills, get homework help and build confidence. Most importantly, children learn how to be their best selves. That makes for confident kids today and contributing and engaged adults tomorrow.

## WHO WE ARE

The Y is the nation's leading nonprofit committed to strengthening communities through youth development, healthy living and social responsibility.

## OUR STAFF

Our child care programs are staffed with people who understand the cognitive, physical and social development of kids, the need children have to feel connected and supported in trying new things, and the caring and reinforcement parents and families need to help each other. We get to know your child personally with a staff/child ratio of no more than 1:10.

YMCA hiring practices meet and exceed licensing requirements. We interview staff individually and check and document a minimum of three references. All experience working with children is referenced. We fingerprint and conduct background checks on all staff prior to employment. In addition to their formal education, YMCA child care staff have an additional 60 hours of in-service training their first year and more than 20 hours each consecutive year. All our staff are certified in CPR and First Aid.

## HELPING CHILDREN THRIVE

El Camino YMCA partners with Project Cornerstone to help adults connect with young people in a positive way to help young people thrive. Research shows that there are essential elements that are crucial to healthy development. We call these elements "Developmental Assets." They are an integral part of our programs and services.

Developmental Assets help create positive experiences, relationships, opportunities and values that young people need to thrive. Examples of these key assets include: adult role models; positive peer influence; caring environments; positive cultural identity; and a community that values youth.

For more details on the 41 research-based Developmental Assets and the organization that drives these efforts, visit [projectcornerstone.org](http://projectcornerstone.org).
