The FIRST LEGO League (FLL) is a global program created to get kids excited about science and technology. FLL utilizes theme-based challenges to engage your child in research, presentations, problem solving, and engineering. The program emphasizes working with others, friendly sportsmanship, learning, and community involvement. Your enrollment fee includes: practice time, team robotic and computer supplies, and entry into one First Lego League Tournament. Teams that make it beyond the first round of competition may be required to pay additional tournament and practice fees.

This year we will be limited to 3 teams (15 total participants).
