Social Emotional Competencies: is a process for learning life skills, including how to deal with oneself, others and relationships, and work in an effective manner. The five core components include: Self-Management (**SM**), Self-Awareness (**SeA**), Responsible Decision-Making (**RD**), Relationship Skills (**RS**), and Social Awareness (**SoA**).

Common Core Standards: These standards are taught through the reading and activities of the selections across grade levels. Students advancing through the grades are expected to meet each year's grade specific standards and retain or further develop skills and understandings mastered in preceding grades. (Reading Standards for Literature (**R**), Speaking and Listening (**SL**))

21st Century Learning Skills: A framework of essential skills for student's success in today's world, such as Critical Thinking, Communication, Creativity, and Collaboration.
